

TOURNAMENT FOR WOMEN GOLFERS

OSHKOSH TO BE HOSTS THE LAST OF AUGUST.

MAY FORM AN ASSOCIATION

Will Compete for Cup Similar to That Donated by Janesville Years Ago for Men.

Oshkosh, Wis., July 23.—The women golfers of Wisconsin will have their first state tournament at Oshkosh, August 21, 25 and 26. This was decided yesterday at a conference of Miss Alice Olwell of the Blue Mound Country club, Milwaukee, Wisconsin director in the Women's Western Golf association, and Mrs. E. R. Whitcomb of the Milwaukee Country club, the 1908 Western association director, with the officials of the Algonia Country club of Oshkosh. The tournament will be held on the Algonia club links and the Oshkosh golfers are so enthusiastic that they have already offered to give the women of the state a permanent championship cup, to be played for every year. The men's championship is for such a trophy, offered by Janesville nine years ago, and it is being slowly covered with the name of Wisconsin's star players. The cup to be presented by the Oshkosh club will be in the custody of the club whose representative wins the championship. The women already have been promised several cups, but in order to provide the cost of printing and other minor expenses, a subscription for the women will be taken up in every year. The men's championship give a working bank which will enable the women to organize a permanent association. Each club, also, will be asked to send six women golfers to compete. The tournament will be on the same basis as the men's state tournament, a tournament for all classes of golfers, and not alone a state championship. The program provides for special events, with three main flights of eight players each, and a fourth flight of eight for juniors. The program follows: Tuesday forenoon—Qualifying round of nine holes with a prize for the low medal score, the best eight to play for the championship. Afternoon—First round of match play, followed by a blind bogey for those who failed to qualify. Thursday forenoon—Second round of match play; medal score handicap for those who were defeated in the first flight or failed to qualify. Afternoon—Eighteen-hole finale. At a luncheon on Thursday the question of forming a state association will be taken up.

SENATE ADJOURNED UNTIL NEXT MONDAY

Members of Upper House Hoping for Report From Conference Committee—Lay Aside Work.

Washington, July 23.—In hopes that the conference committee on the tariff might be able to report by that time, the senate today adjourned until next Monday instead of Tuesday, as would have been necessary under unanimous agreement for three-day intervals pending the report of the conference committee. The most striking sign of an approaching quick and decisive action on the tariff bill appeared this afternoon, when the conference committee excluded the clerk and everybody else except the conferees themselves and went into a strictly an executive session. It was now understood that the committee would stick to their task with possibly a brief recess for dinner this evening until the iron, hides, coal, lumber, wood pulp, print paper and structural steel was disposed of. There are good signs for a finish of the conference work tonight. The indications this afternoon are very strong that the tariff conference committee will report in favor of the following rates on articles which have caused so much recent controversy: coal 45 cents per ton; iron ore 25 cents; hides seven per cent ad valorem; lumber \$1.25 per thousand; petroleum free. There will be no more opposition to the hide reduction than to any other of these adjustments.

IS GROWING COTTON FROM TEXAS SEEDS

H. D. Boone, Formerly of Southeastern Texas Has Novelty on His Farm Near City.

H. D. Boone, who formerly resided in Southeastern Texas, and who is now running a farm on the White Wright place, five and a half miles west of Janesville, has a novelty in the shape of growing cotton on his place. The seed was brought here from Texas and unless we have an early frost will blossom and bring forth a crop. At present the plants are sturdy and are attracting much attention.

MAN HURT WHILE UNLOADING RAILS

Fred Servis Received A Bad Wound This Afternoon While At Work On The Railroad.

Fred Servis, a laborer employed by the North Western Railroad, fell from a car this afternoon at two o'clock while unloading rails near the Three Mile Creek, and cut a bad gash in his head. Although he was unconscious when picked up, it is not thought that the injury will prove serious. Dr. W. A. Mink dressed the wound and took the man to his home.

WAITING ORDERS AT THE ARMORIES

MILWAUKEE TROOPERS AND BATTERY UNDER ARMS TO GO TO KENOSHA.

TROUBLE AT MANITOWOC

Sheriff Called Upon to Protect Residents of Quarry From Striking Italians.

Manitowoc, July 23.—The city troops and battery are at their armories awaiting orders to go to Kenosha should their presence be needed there. Arrangements have been completed for their transportation in a special train if orders come. The different companies of Infantry in the city are also under orders to move on quick notice if ordered and men are at the alert armories to have everything in readiness for a quick assembling of the different companies.

At Kenosha. Kenosha, July 23.—A day of negotiations for settlement, from any suggestion of violence, followed yesterday's riots at the strike-bound tannery of N. R. Allen's Sons Co. here, wherein three men were shot and several others more or less seriously hurt. As a result of the series of conferences between the strike committee and the company's officials today the breach between the company and its employees has narrowed to the question of pay for time lost by the strikers. This promised to be the stumbling block to an adjustment.

At Manitowoc. Manitowoc, July 23.—Intimidated by the display of the knives or other weapons in the hands of the strikers, the residents at Quarry today appealed to the sheriff for protection and Sheriff Willinger with his deputies hastened to the scene to quiet any disturbance which might occur. The men are Italians and are employed by the Union Lime Co. and made a demand for an advance in wages. When the company refused to immediately grant the demand the strikers gathered in a body, which in view of the past experience in the city frightened the residents. The company finally agreed to a compromise, and the men returned to work.

TWENTY-THREE KNOWN TO HAVE PERISHED

And Fourteen Are Missing As Result of Storm Which Swept Southern Coast.

Houston, Tex., July 23.—Twenty-three are reported dead, fourteen missing, eight injured, and a property loss totaling \$750,000 as a result of the storm which raged over the southern coast of Texas on Wednesday, according to dispatches received up to this morning. The communication with the stricken district is still vital.

NEW RAILS FOR THE EVANSVILLE CUT-OFF

North Western To Install New Hundred Pound Rails Between Janesville and Evansville.

Sixteen miles of new one hundred pound rails will be laid by the North Western Road between Janesville and Evansville and it is expected that it will take about three months to complete the work. The announcement that the company is about to put in new track comes as a surprise for it has been thought that, on account of the great amount of traffic over this portion of the Madison Division, the company would put in a double track. This plan, however, has evidently been abandoned as the present improvement does not call for a double track.

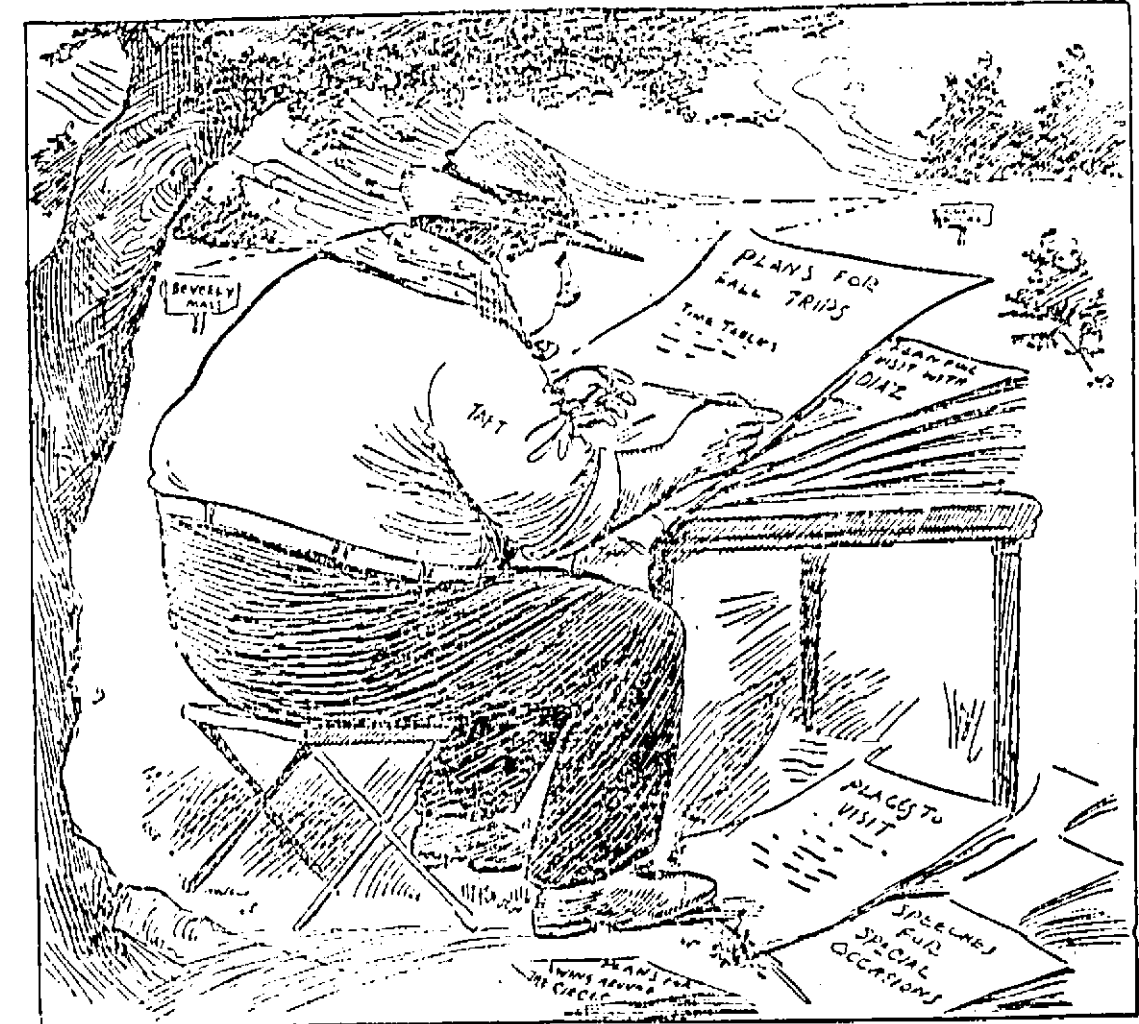

In addition to placing new rails, the right of way will be elevated wherever necessary, the track re-ballasted and new ties put in wherever needed. Work will begin as soon as arrangements can be made for the accommodation of the 125 section hands which are to be sent from Chicago. The new rails which are to replace the old eighty pound rails have been arriving for several days and when the workmen arrive, the work will be rushed to completion. All that now prevents the work from being started is the non arrival of kitchen and bunk cars for the laborers. J. N. Blair of Madison Road Master for the Madison Division, will have general charge of the undertaking.

LACKAWANNA RAILWAY OFFICERS ON GRILL

Members of Executive Staff Called Up for Violating Law in Regard to Paying Employees.

Norwich, N. Y., July 23.—Several of the most prominent executive officials of the Lackawanna railroad have been summoned to appear in court here tomorrow to answer to the charge of violating the law that a railroad company must pay its employees twice each month. The complaint is made by the state department of labor on the affidavits of a number of local employees, who certified that their pay for the first fifteen days of June was not received until July 10.

CHRISTIAN KNIGHTS OF GRIP ASSEMBLE IN NATIONAL CONTESTS

Glideonites, "Christian Traveling Men," Meet in National Convention in St. Louis.

St. Louis, Mo., July 23.—St. Louis is entertaining for three days a large and notable gathering of commercial travelers, who have assembled from all parts of the country for the annual national convention of Glideonites. The organization is composed of "Christian traveling men" and its aim is to promote the spiritual and moral welfare of the great army of men engaged as commercial travelers in America. The business of the convention will occupy two days and will be followed on Sunday with special religious services in several of the local churches, the pupils of which will be occupied by prominent speakers among the delegates.

NIGHT SESSION IS A CAUSE OF DEATH

Speaker of the Australian House of Representatives Dies After Hard Night Session.

Melbourne, July 23.—At the end of an all night sitting of the Commonwealth parliament, Sir Frederick Holder, the speaker of the house of representatives was seized with a fit and died soon afterward.

PORTUGAL'S PRINCE RENOUNCES RIGHTS

Prince Miguel Gives Up Rights to Throne to Marry New York Girl.

Lisbon, July 23.—Prince Miguel of Braganza today renounced for ever his rights to the throne of Portugal in order to marry Anita, daughter of Mrs. James Henry Smith of New York.

SHEA IS GIVEN AN INDETERMINATE TERM

Former President of Teamsters' Union Sentenced to From Five to Twenty-Five Years in Prison.

New York, July 23.—Cornelius P. Shea, former president of the International Brotherhood of Teamsters, was found guilty, Wednesday, of attempting to murder Alice Walsh, a former Chicago waitress with whom he had been living here, and was sentenced today to not less than five nor more than twenty-five years in prison.

WOMAN WANTS TO BE DEPUTY SHERIFF

Oshkosh Woman Seeks to Have Sheriff Give Her Star So She May Work in Saloons.

Oshkosh, July 23.—Efforts are being made by the W. C. T. U. of this city to secure the appointment of Mrs. I. Cooper of this city as deputy sheriff. Some time ago an application for the position by Mrs. Cooper was made to the sheriff but nothing came of it. The temperance society are determined to make another effort and the matter will be taken up at the party convention, to be held the first Friday in August. Mrs. Cooper wants to wear the star of the deputy sheriff in order to have authority to enter saloons and the poorer parts of the city in an effort to prevent young boys from drinking intoxicating liquors. She claims that while she has the right to do that now, if she has the authority of a deputy sheriff, she would be able to accomplish better results.

Y. M. C. A. ATHLETES IN NATIONAL CONTESTS

Preliminaries in Field and Track Championship Meet Held on Exposition Grounds at Seattle.

Seattle, Wash., July 23.—A wealth of amateur athletes representing widely separated sections of the country appeared in Seattle today to take part in the national Y. M. C. A. track and field championships. The preliminary events take place this afternoon in the stadium on the exposition grounds and the finals will be held at the same place tomorrow. This tournament is one of the most representative athletic events that has ever been held in this section. Not only have the elites of the Pacific northwest, including Portland, Tacoma, Everett and Vancouver, some individual athletes or teams to the meeting, but such distant cities as Chicago, Kansas City, Philadelphia, and Malden, Mass., are also represented. Many star athletes are included among the contestants and it is predicted that one or more amateur records may go by the board before the tournament is concluded.

TEACHERS COMPLETE THEIR WORK TODAY

Studies End at High School This Afternoon and Certificate Examinations Begin Tomorrow.

Today's work of the Teachers' Institute which has been held at the high school the past two weeks, was brought to a close. The classes in the various subjects had their last recitations and this afternoon at the close of the day's work, the conductors of the Institute, County Superintendent O. D. Antbodel, Superintendent of City Schools H. C. Buell, and Principals R. E. Loveland of Mineral Point, F. J. Lowth of Evansville, E. L. Roethe of Edgerton, each gave a short talk to the teachers. State Inspector H. L. Terry, who was in the city today attending the Institute and looking over the work of the classes, also rendered his report of the work done. Beginning tomorrow the examinations for certificates will be held in the high school, but as there are to be other tests held in other cities throughout the county all those attending the Institute did not remain for these. Those desiring third grade certificates write tomorrow, Monday will be occupied with examinations for third grades, and some first grade certificates, and on Tuesday will occur the tests for third and second grade certificates. For those to whom it is inconvenient to write on the questions at Janesville there will also be examinations conducted in Evansville, July 24 and 25; in Clinton, July 30 and 31; and in Milton Junction, August 5 and 6.

ACCIDENT TO BOAT CAUSED BIG PANIC

Large Picnic Party Badly Frightened When Boat Runs Aground and Breaks Rudder.

While Paul F. Gehrke's steamboat, the "Columbia" was pulling out from the landing at Crystal Springs last night in order to make the homeward trip with nearly a hundred members of the United Brethren Church aboard, a panic, which, it there had been any real danger might have resulted seriously, occurred, and although no one was hurt, many were badly frightened. The accident which caused the excitement, happened about five o'clock and was due to low water. The "Columbia" was just about to return to town when the prow of the boat lodged upon a mud bank about sixty feet from shore. When the boat capained the women became frightened and someone senselessly screamed "Fire." Considerable commotion resulted and before the passengers were quieted one boy had fallen overboard. In trying to release the boat by backing up the rudder was broken and the boat rendered unfit for service. When it was found that the passengers could not be taken to town in the disabled steamer, a call was made upon the launch owners and the passengers transported in relays to the down town landings in launches by F. C. Turner Robert Bear, Paul Gehrke and George Harringe. Except for a thorough drenching from the rain which fell throughout the trip, no one suffered any damage.

Kearney, Neb., July 23.—The Glidden tourists made a start for today's run to Julesburg, Colo., at seven o'clock. The roads are generally good throughout the 206 miles of the run. Fifty Going to Camp: It is expected that fifty boys will be present at the Y. M. C. A. camp at Lake Delavan, which opens next Tuesday, lasting ten days. Mr. Birch desires to meet all of those who will go over at that time, at the association rooms Monday morning.

ECUADOR CELEBRATES FREEDOM WITH FAIR

To Open Exposition on the Hundredth Anniversary of Independence of Country.

Quito, July 23.—The international exposition to be opened here next month is rapidly nearing completion and it is expected that all will be in readiness on the opening day, which has been fixed for August 10. The exposition is to celebrate the one hundredth anniversary of the independence of Ecuador. The United States and Columbia are the only governments which will have independent buildings at the exposition, but other nations, including several European countries, are sending elaborate exhibits.

GOVERNMENT SENDS OFFICIAL WARNING

Post Office Department Says That Old Spanish Swindle Is Again Being Practiced.

Revival of the "Spanish prisoner" swindling schemes of several years ago has resulted in the Postoffice Department making special efforts to warn possible victims. A case that has resulted in dozens of complaints to General James E. Stuart, inspector in charge in Chicago, is one in which a Russian banker is represented to be in prison in Madrid, Spain, victim of a plot to rob him and his daughter of their fortune. Hundreds of letters, purporting to be written with a pen, but which the authorities say are printed, have passed through the mails in Chicago, and many have been turned over to the postoffice inspectors. They purport to be from A. Bellavsky, the imprisoned banker. The letters appeal for help in obtaining \$120,000, which Bellavsky claims to be due him and his daughter, promising \$160,000 of the money to the person to whom the letter is sent, as a reward for helping get the \$120,000. In each letter is a clipping purporting to be from a London newspaper, telling of Bellavsky's imprisonment.

BIRTHDAY OF A GREAT CARDINAL

CARDINAL GIBBONS CELEBRATES SEVENTYFIFTH BIRTH

ADMINISTRATION IS MARKED

By Many Notable Deeds for Advancement of Cause of Catholic Church in America.

[SPECIAL TO THE GAZETTE.] Baltimore, July 23.—Apparently in unimpaired health and as strong as he was twenty years ago Cardinal Gibbons today reached his seventy-fifth birthday anniversary. In accordance with the rules and traditions of the Roman Catholic hierarchy the event was not made the occasion of any special celebration or observance of a public nature, but hundreds of letters and telegrams of congratulation from distinguished persons in all parts of the country bore witness to the fact that the venerable primate of the Roman Catholic Church in the United States has many friends and admirers throughout the land, who did not fail to remember this memorable day in the life of the Cardinal.

Cardinal Gibbons was born in Baltimore, of Irish parents, on July 23, 1834. While he was still a boy James Gibbons was taken to Ireland by his father, where he received the elements of a liberal education. On his return to America he entered St. Charles College, Maryland, from which he graduated with distinction in 1857. He then entered St. Mary's Seminary, Baltimore and after the usual course of philosophy and theology was ordained a priest on June 6, 1861 by the late Archbishop Kondrick. He immediately entered upon the duties of his calling, serving first as assistant to the late Rev. James Dolan, rector of St. Patrick's church, and afterward as the pastor of St. Bridget's church, Canton.

A few years after his transfer to St. Bridget's he was elected by the late Archbishop Spalding as his private secretary, and on August 16, was consecrated at the Cathedral of the Holy Trinity in Paris by the Bishop of Adramyttium in Parisus Indellum and vicar apostolic of North Carolina. He remained four years in North Carolina and displayed such remarkable administrative abilities that on the death of Bishop McGill he was translated to Richmond, Va., where he was installed bishop by the late Archbishop Bayley on October 20, 1872. His administration in Richmond was marked by an almost immediate revival. In the course of five years several new churches were erected, and St. Peter's Cathedral, Mary Academy and St. Joseph's Female Orphan Asylum was enlarged, a parochial school for boys and girls established at Petersburg, and one at Portsmouth for girls. On the 20th of May, 1877, he was appointed confessor with the right of succession to the late Archbishop James Roosevelt Bayley of Baltimore. He was installed archbishop at the Cathedral February 10, 1878. On March 17, 1887, he received the red hat of the Cardinals from Pope XIII, having previously been invested with the insignia of the office of the Baltimore archbishop. On May 25 of the same year he took possession of his titular church in Rome and, when he returned from Rome on June 17, 1887, he was welcomed in Baltimore by one of the largest and most enthusiastic public demonstrations ever witnessed in that city.

Cardinal Gibbons was one of the founders of the Catholic University and is its chancellor. His influence at the Vatican has always been great and, it is said that his representations have been the cause of the Pope's famous encyclical on the question of religious freedom in government in the United States. As an author Cardinal Gibbons holds a high rank in the literature of his church, and his "Faith of Our Fathers" is regarded by eminent scholars and divines of every creed as a masterpiece of logic and literary attainment. With all his learning and attainments Cardinal Gibbons is one of the most modest and unassuming of men and dearly beloved not only by the priests in his charge but by the people of all classes, who venerate him for his kindness, charity and truly democratic affability.

Make up your mind right now that you are going to be one of the winning ones and strive to attain that end. You can do it if you try. Do not wait until the last moment, but start right now. If your name is already entered in the list and you have not done much as yet begin now. You will never regret the time and effort spent in this contest.

There never has been a voting contest which has sprung into such immediate favor as the one being conducted by The Gazette.

The prizes are especially liberal, with none of the objectionable features which usually accompany such affairs. To win one of these prizes will be a very gratifying honor and of immeasurable profit and pleasure to the winners.

The best way to poll up a large number of votes is by securing a few subscriptions to The Gazette. A little work now will be worth ten times the amount later on. Get in the contest with a view to win, as the prizes, gold watches, diamond rings and other valuable gifts are worth vastly more than an effort.

The many precautions taken by the contest department to assure every one a "square deal" and an even chance with all others to become a winner, coupled with the fact that the proposition is a high-class one, has attracted the most popular members of every class, and has given the candidates and their friends an inspiration to put forth every effort to win in the struggle.

To begin well in any contest is a great advantage. In this contest your friends and acquaintances are your friends and acquaintances, which are prime factors for success. It will take but a few votes to place your favorite candidate in the lead, and to secure the prestige that goes with a good beginning.

In many contests of this nature the voting of purchased ballots has oftentimes swung the prizes away from those to whom they justly belonged. This practice is absolutely prohibited and cannot possibly happen by the system under which this contest is conducted.

No money, but popularity and honest endeavor of the candidates and friends win these prizes. Please call and have this important point thoroughly explained.

You have nothing to lose and all to gain and a week's trial will demonstrate how easy it is to get votes.

There is an opportunity to make your list of acquaintances valuable to yourself. But one requirement is made of you, and that is: Quick action and conscientious effort.

Phone your friends and have them send the coupons and nomination blanks; they will be glad to assist you.

This is the time that your friends can assist you without extra cost to themselves.

Then make your leisure time of some value to yourself and work. All things are possible for any young lady when her efforts are properly directed. One of the most beautiful Newman Bros. plans is worth trying for. It is one of the best plans that H. P. Scott sells.

Don't forget the contest does not close for over six weeks. The closing day is September 4.

Everyone is entitled to ballots. It makes no difference whether you are a new subscriber or an old subscriber or voting in advance, you are entitled to votes, so be sure to ask for them.

Subscription Books.

Contestants and their friends are privileged to accept payments on subscriptions and in order that they may receive for such payments we will provide them with a receipt book if they will inform the Contest Department.

Paper Free to Contestants.

If there are any contestants that are not now getting our paper, we will be very glad to send it to them free of charge during the contest if they will notify the contest department.

Nomination Blank Worth 25.

Remember, candidates that voted and every nomination blank counted bearing your name adds 25 votes to your credit, so ask your friends to save the nomination blanks for you as well as the coupons.

Open Evenings.

For the benefit of those who cannot call during business hours this office and contest department will be open every evening until 8 o'clock.

**NOTICE CONTESTANTS.**  
All contestants residing east of Rock River are in District No. 3; all contestants residing west of Rock River are in District No. 2. Should your name appear listed in the wrong district notify the contest manager at once and the correction will be made. Each contestant's name must appear in the district in which she resides.

### HIBERNIANS HAD A BIG DAY AT THE PARK

Picnic At Ho-No-Ne-Gah Yesterday Was Most Successful Affair Given By Order.

Six hundred people attended the picnic given by the Hibernians at Ho-No-Ne-Gah park Thursday and had the weather been more favorable, many more would have been present, going to the grounds after five o'clock. The better part of the day, however, was fair and the outing was the most successful given by the society.

At eight o'clock at St. Patrick's church, the members of the organization and the ladies auxiliary attended a mass by Dean Kelly at St. Patrick's church, and listened to a sermon in which the Father praised the orders for their good work.

Besides those from this city, Hibernians attended from Milwaukee, Chicago, Beloit and Rockford. Joseph Flaherty of Jamesville, acted as President of the day, introducing Father Kelly who made a short speech. State President J. P. Callahan, of Milwaukee, was the speaker, and his talk was delivered in a manner that brought forth hearty applause from his auditors.

The occasion he said, was notable as being the first annual state picnic of the order. Thomas Smith, aged 20, the youngest player in America, all of Chicago, triumphed through a number of lively Irish dances. Miss O'Connell, a six-year old Chicago lad, also executed a number of clever dance steps.

First prize in Irish dancing was won by Patrick Slain of Jamesville, in competition with John Hogan and John Keltcher, also of this city. Thomas McKelene was the speediest in the fat men's race and Jerry Cronin was the victor in the sack race. Miss Marie Nelson won the ladies' running event. Miss Hazel

Delaney capturing second place. In the tug of war, Bass Creek pulled Jamesville over the line. James Sheridan acted as judge of the sports and games.

One of the pleasant features of the program was the musical numbers, given under the direction of J. H. Burns, which included some splendid singing by the choir of St. Patrick's church. Miss Josephine Fitzgerald gave an excellent reading.

The conclusion to this happy day was the dancing party held in the pavilion in the evening, old and young joining in this enjoyable pastime.

Reflection on Grandmother. Jimmie sat on the chopping block reflectively twiddling his fingers. Should he go fishing or play ball? His grandmother called from the open window: "Jimmie! Don't you know? Satan finds some mischief still for idle hands to do?" Lying in a basket of chips? Replied Jimmie (with a twinkle): "That ain't no mischief!"—Lippincott's.

UNUSUAL AND FIRST PHOTOGRAPH OF SCHNEIDER AEROPLANE WRECK.

Aviator Schneider plumed beneath the wreckage of his own aeroplane, which was wrecked at 7:30 P. M. last Monday at Morris Park, N. J. In five minutes he was up assisting in clearing the wreckage. Schneider had many narrow escapes but this month his aeroplane until released by his assistants and it was fully expected he was dead until investigation proved him only slightly injured. That Schneider escaped instant death is marvellous. He was pinned under the wreckage until released by his assistants and it was fully expected he was dead until investigation proved him only slightly injured.

"LIVE WIRES."

James U. Sammis of Le Mars, Iowa, newly elected exalted ruler of the Elks lodge.

In selecting James U. Sammis of Le Mars, Iowa, as the grand exalted ruler of the Benevolent Protective Order of Elks a man well known in his home state is brought into the national platform.

The fight for the office was confined practically to two candidates, Sammis and Harry Hermann, the Cincinnati baseball magnate. Sammis candidacy was endorsed by William Grand Exalted Ruler Rush L. Holland of Colorado Springs, who issued a statement just before the election relative to a letter he wrote the Iowa man. This was given by the Sammis supporters and Holland acknowledged.

Evelyn Nesbit showed evidence on her face as she was giving damaging evidence against her husband at White Plains.

GRAND OLD MAN OF BASEBALL JAKE BECKLEY, NOW WITH KANSAS CITY.

Baseball fans and followers alike through the west and in fact all parts of the country were pleased to hear that Jake Beckley veteran first baseman of the minor and major leagues, had been appointed manager of the Kansas City club of the American association. Just now he is laid up with malaria fever, but sticks with the club. Jake has been playing ball for 25 years and during all of that time has made a wonderful record in the minor and major leagues, and it is with some satisfaction that he now assumes the role of manager.

He succeeded Monte Cross, the former shortstop of the Philadelphia American league club.

Beckley was born in Hamlin, Mo., August 4, 1867, and is now nearly 42 years old. He started to play as a professional in 1886, with the Leavenworth (Kan.) club, and the spring of 1887 was sold to the Lincoln (Nebr.) club.

After finishing the season there he

played through the winter of 1887 at Stockton, Cal., where he made quite a record for himself. In 1888 he was secured by the St. Louis Whites, there being two teams in St. Louis at that time the Browns and the Whites. On June 22 of that year he was sold to the Pittsburgh club of the National league with Harry Staley and famous players of those days.

Beckley remained with the Pittsburgh club until 1896, when he was sold to the New York Giants. In 1897 he was sold by New York to the Cincinnati Reds and he remained with them until 1903 when he was sold to the St. Louis National league club. He played there until 1907, when George Toben bought his release, and played him with the Kansas City club, where he is still playing.

Beckley was also considered a great batter and during his long career in the major leagues he always batted near .300 or over. It is a remarkable record when one stops to consider that this man has been playing big league ball 23 years. During the spring Toben of the Kansas club secured a young first-baseman, and tried to hold Beckley as a utility player, but it soon became evident that Beckley was far superior to the young

The Wisconsin State Fair now ranks among the very best State Fairs in the country. It is this year offering nearly \$70,000 in cash prizes. The fair to be held in Milwaukee, September 13-17, will evidently surpass any preceding exposition in exhibits and attractions.

TURNS AT LAST.

Several years ago when Robert M. LaFollette was seeking to become Governor of Wisconsin, aiming to be the dominant power in state politics, there was started in Madison a newspaper called the Madisonian. While it did not publish its motto, "Bob can do no wrong," it advocated every measure he did it published columns after columns of fulsome praise of the man himself. Now that the working of his reforms have been fully demonstrated, now that time has shown what these same reforms were designed for, the Madisonian's eyes have been opened and in the following editorial it repudiates LaFollette and LaFolletteism. It is interesting reading to those who have opposed the reforms from their beginning.

"The day is past when men can achieve distinction by advocating such bunco games as primary elections, public supervision of everything under the sun and the inauguration of new and unheard of theories of taxation. Bob LaFollette has worked all these things to a needle point, in fact he worked them out to such an extent that there is no material in them for any political party that would result in producing working sufficient to kill any political party that works therein. And what has the state profited by all his works by all the reforms he ever advocated? Are taxes lower? Your tax receipt answers this question. In the negative. Are politics better and cleaner and more honorable than before? The testimony of Bob's own game wardens and oil inspectors gives an emphatic negative answer to this question. Is it easier for a poor man to get an office than it was before his reforms were instituted? Call up Uncle Ike on the long distance telephone call up any of the boys who have tried and got their answer. Are we getting more honest public service than we had before? Ring up the game wardens, the oil inspectors and the factory inspectors, and if not satisfied with their answers go through their testimony given before the legislative investigating committee. Are our public servants nobler and more efficient? Catalogue them and then go over the list name by name, investigate their standing and ability and make a comparison between what you find and the record, standing and ability of public servants who held office before the advent of the reformers."

GOOD ARGUMENT.

It appears that Janesville is not the only city whose common council hold star chamber sessions and that Beloit is also troubled with a similar epidemic. The Beloit Daily News publishes the following comment and Alderman Dulla's speech on this subject given last Monday evening at the council and endorses his views. It is worth considering and is reprinted in full for the respectful consideration of the members of the Janesville council.

"I have liked what Ald. Dulla of the Janesville common council had to say the other night about executive sessions. We have known for a long time that executive sessions were being resorted to altogether too much in many deliberative bodies, the nearest home of which is the Beloit common council but we refrained from saying much because we thought patience one of the virtues. But the speech of the Janesville

gentleman, who says the public is entitled to know what goes on in the meetings of its representatives, is so refreshing in the arid desert of star chamber proceedings that we feel impelled to enter upon a brief and not too temperate discussion of the question.

"The plea of the executive session man is usually that the city's interests can be better safeguarded, particularly in the case of legal questions, where the city's side of the case is not given away to the opposition. This is true to a limited extent. It is conceivable that there might be such case, but they are so rare as to be almost negligible. Nearly every executive session is absolutely useless. But besides being useless it is apt to create suspicion that the council may have something it wants to cover up for no laudable reason. The suspicion may be entirely unjustified but it is bound to be created and a feeling of dissatisfaction and unrest follows.

"Let the council come out in the open with its discussion of public affairs. Let it keep the people informed of what it is doing and it will awaken more confidence in itself than it will by constantly hiding important parts of its meetings behind closed doors."

## Uncle Walt of Emporia

By WALT MASON (Copyright, 1909, by George Mathew Adams.)

I went one night with my high-priced thirst to loaf in the booze bazaar, and as I sampled the old red dope I leaned on the hand-some bar. My purse was full of the good long green, and my raiment was smooth and new, and I looked as sleek as a cabbage rose that's slicked by the nice wet dew. Behind the bottles a mirror stood, as large as your parlor floor, and I looked and looked in the shilling glass, and wondered, and looked some more. My own reflection did not appear, but there where it should have been, I saw the form of a cringing hound all cramped and soaked with rain. His nose was red and his eyes were dim, unshorn was his swollen face, and I thought it queer such a seedy fellow would come to such a place. I turned around for a better look at his effigy of despair, and nearly fell in a little heap, for the effigy wasn't there! The bartender laughed, "It's the Magic Glass," he said, with a careless yawn; "it shows a man how he's apt to look years hence when his roll is gone!"

## Heart to Heart Talks.

WHO KILLED THE BABY?

Baby Bremerman of Washington was killed by poisonous gas.

The Bremerman family was poor. It used a cheap gas stove which leaked and poisoned the family. All recovered except the baby.

Investigation showed that the poisonous gas was carbon monoxide. It was not coal gas, the merchantable gas, at all. It was a mixture of 25 per cent coal gas with a product known as carbureted water gas.

You see, it is cheaper to make gas of water than out of coal. So long as no one makes objection the water gas serves the same purpose as coal gas—and the gas company gets bigger dividends.

But—The mixture of the two gases produces a percentage of carbon monoxide, one of the most deadly gases known to chemists.

So that the people of Washington are receiving through the gas pipes into their homes a deadly poison. This poison does not "asphyxiate" people, as does coal gas. It strikes them down suddenly when they get a whiff of it. If the people happen to be poor, like the Bremermans, and there is a leak in the pipes or the stove, there is a tragedy.

Well—Who killed the Bremerman baby? The Washington Gas Light company contracted with the Bremermans to give them pure coal gas. Presumably they paid their bills.

Now, if after making this contract the gas light company substituted a cheaper product which was poisonous, common sense would suggest that the gas company killed the baby.

The department of justice says no. It says there is no liability on the part of the company for the results of its carbon monoxide.

Because, say the lawyers, congress did not say the company should not make and sell this poison gas, therefore—why, therefore the company had the undoubted right to poison Bremerman's baby.

But, nevertheless, say the lawyers, the company did not kill the baby. Who, then, did kill the child?

The parents because their cheap gas oven leaked, or the company that botched the stove in the making, or the gas-fitters, or congress?

Who killed Bremerman's baby? The name of its murderer is GREED.

The Difference.

Stubbornness is fighting to have in a certain way what you want. Strength of purpose is getting in the most convenient way that presents itself what you desire.

THINK WITH THE GOODS.  
"I don't know what you mean," said the man, "but I don't know what you mean." "That's all right," I guess I can buy one at the book store.

## DENTAL CHAT

No tooth brush can thoroughly clean the teeth.

There is a time crust that forms on the teeth from the saliva which is too hard for the brush to remove.

One should visit a Dentist at least twice a year and have this tartar scraped off.

Then with daily use of tooth powder and brush the teeth can be kept in good order and preserved.

Neglect of the daily brushing allows the food particle to ferment and produces a destructive action on the enamel.

Teeth are good friends to us.

They deserve better care than they usually receive.

## A Man and his Clothes

do not always agree. He gets mad with them because they look soiled and out of shape. Every such man should send his clothes to us and we will make them agreeable to him. We will clean and press them that he will be delighted to see and wear them again. We do not charge much for this service, and it takes but little time to perform it.

Reported That Wisconsin Telephone Company Would Purchase the Rock County Telephone Company in Entirety.

It is reported currently this afternoon that the Wisconsin Telephone company is seeking to purchase the stock of the Rock County Telephone company with a view to consolidating the two properties. An officer of the Rock County company admitted that an offer of this nature had been made within a day or two but that nothing definite had been done.

## ARRIVES IN CITY, PARENTS MISSING

Mrs. Grace Dixon Fails to Find Parents Upon Arrival in City From Chicago, Ill.

Arriving in Janesville alone last night from Chicago, Ill., with the expectation of meeting her parents, Mr. and Mrs. John H. Hatcher, and then to find that they cannot be located, was the awkward dilemma of Mrs. Grace Dixon, who passed Thursday night and this morning in anxious uncertainty as to their whereabouts.

Mrs. Dixon, with her husband and small children, had been living in Chicago City for some time and expected to join her father and mother who, she said, moved here from Plattville, Wis. about a week ago. Finding that there was no one present at the train to meet her, she called the services of the ticket agent, F. L. Davis, who caused inquiry to be made among the draymen in an effort to find who moved their household goods. No information could be secured last night and the young lady was forced to spend the night in a hotel. This morning the police were notified but up to the present time have found no trace of Mr. and Mrs. Hatcher. After the police had been notified, Mr. Hatcher made the rounds of the freight office and found that no household goods belonging to anyone by the name of Hatcher had been received in the city. The young lady, who has separated from her husband, and wishes to return to her father and mother, was taken care of in the city's office today and will be given a ticket to Plattville this evening. She has but one of her two small children with her.

### STUDY OF STARS AND PLANETS

Astronomers from the World Over Visit Sir William Huggins and His Observatory.

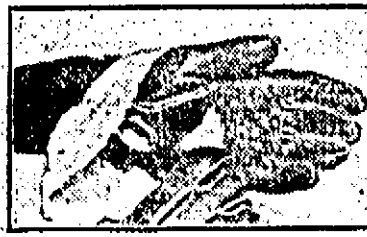

The pioneer in the study of the stars and planets by means of the spectrum has been Sir William Huggins, the recent president of the Royal Society, and his observatory at Tulse Hill is visited by astronomers all the world over as the birthplace of the new astronomy. More than a generation ago the announcement by Kirchhoff that the chemical constitution of the sun had been analyzed (after the manner we have indicated) by the spectroscopic method, which has revolutionized methods of stellar research. The difficulties at the outset in the construction of a successful spectroscopic telescope were enormous. Imagine the light received on the earth from a first-magnitude star, such as Vega,

Sir William Huggins in His Observatory.

which is only about the one-40,000,000,000th part of that received from the sun! It was necessary to attach a spectroscopic to the eye-end of the telescope, so that it would be carried with it, with its slit in the focal plane. Then, by means of a small reflecting prism placed before one-half of the slit of the spectroscopic, light from a terrestrial source at the side of the telescope could be sent into the instrument together with the star's light, and so form a spectrum for convenient comparison with it. The chemistry of the solar system was shown to prevail, essentially at least, wherever a star twinkles. Further, elements which play a chief role in terrestrial physics—iron, hydrogen, sodium, magnesium, calcium—were found to be the first and the most easily recognized of the earthly substances in the stars. To quote the astronomer's own words, "The observatory became a meeting-place where terrestrial chemistry was brought into direct touch with celestial chemistry. The characteristic light-rays from earthly hydrogen shone side by side with the corresponding radiations from starry hydrogen, or also fell upon the dark lines due to the absorption of hydrogen in Sirius or in Vega. Iron from our mines was thus matched, light for light, with stellar iron from opposite parts of the celestial sphere."

#### LATEST NOVELTY IN PURSES.

The purse is made in the palm of the glove, and is thus secure from the attention of thieves.

**The First Lifeboat.**  
Some may be surprised to learn that the first lifeboat, especially of the style of those adopted at the present time, is still in existence at Heder, in Yorkshire, says Windsor Magazine. This boat was placed at Heder in the year 1802 to be used as a boat "for saving life in storms" or "for saving the ships" coming into or near the mouth of the Tees. It was built by a shipwright of the neighboring port of Sunderland from plans of his own invention, and parliament considered his work so meritorious and advantageous that it voted him a sum of £2,200 as a reward for his time, trouble and ingenuity. This fine old boat did excellent service for over 71 years, and then, owing to the introduction of newer types and better boats, it was placed upon the "retired list" and transferred to the shed where it now is.

**Handy Electric Car.**  
The electric vehicle is essentially the proper equipment for shopping trips; for the doctor who must depend upon a machine to be in readiness day or night, and which he can manipulate himself without fuss or bother and without calling upon a professional driver. The noiseless vehicle makes it the perfect machine for ladies' use, and for threading in and out the busy city traffic the business man for his short trips finds it an especially agreeable mode of travel.

**Uncle Ezra Says:**  
"It is a hell lot better to have a cabbage in your hat than an artificial wig on your tombstone."

The Clermont, in which Robert Fulton made his memorable trip up the Hudson in the first steamboat. Below, Mrs. Sutcliffe, who christened the new Clermont as she was about to enter the boat on the ways.

States Island.—The launching of Sutcliffe, grand-daughter of Robert Fulton, marked the completion of the initial work on the replica of Robert Fulton's famous first steamboat. Probably a larger crowd witnessed launching of the New Clermont than witnessed the first experiences of Fulton's one hundred and two years ago next August. At the first tremor Mrs. Allen Cray, Impton.

The Clermont is to take part in the festivities attendant upon the celebration of the anniversary of Fulton's success this fall. Every detail, as far as known of the original Clermont is to be carried out and the boat brings forcibly to mind the immense progress of the last one hundred years in steam navigation.

The University of Wisconsin has just added the latest course—that of Journalism. It is a comparatively new field of endeavor, but already proven the need for such a department.  
Louis P. Lochner is the first man in the United States and undoubtedly in the world to be made a fellow in Journalism. His election came with the close of the present school year in June.  
As a fellow Lochner is to be editor of the Wisconsin Alumni Magazine. During his two years' course at the university Lochner has been active in newspaper and magazine work outside

of the regular course. During 1908 he was connected with one of the Milwaukee papers and was editor of the Wisconsin Spectator, an undergraduate monthly publication at the university.  
Later he was made editor of the Cosmopolitan Annual the official organ of the association of cosmopolitan club. His work in magazine articles includes contributions to the Review of Reviews and The Independent.  
Mr. Lochner is a young man with a keen sense of proportion, a careful student and those who are familiar with his work predict a brilliant career in his chosen field.

Just a Slight Mistake.  
The story is an old one of the party of tired travelers who entered a house decorated by a peculiar sign and demanded oysters. "This is not a restaurant," said the courteous gentleman who met them; "I am an artist." "Isn't that an oyster hung outside the door?" asked one. "No, gentlemen, it is an ear."

\$3.75 for boys' 2-piece guaranteed Hercules suits, regularly sold at \$5, \$6 and \$6.50. Every garment is new; the line is one we added this season, the best we could find. The suits are sweat, moth and shower proof, are double lined in sleeves and pants, re-enforced seat and leg seams, guaranteed absolutely against ripping, styles and patterns are very nobby and pretty. These are put down in price to \$3.75 per suit.

\$4.95 for elegant suits regularly sold at \$7.89 and \$10. These clothes you will enjoy buying; they represent the best in boys' apparel. Fancy mixtures as well as worsteds and black and blue solid colors.

Coats are double breasted, pants very large and full, of the popular knicker style. These suits have made a reputation for our children's department. Pants are the kind that the boys insist on having.

The big roomy peg top knickerbocker pant suits have supplanted the regular straight knee pants and we find we have an accumulation of boys' suits of this style. They are made up perfectly, styles otherwise very good, pretty patterns of worsteds, fancy materials, serges, blacks, suits that are worth \$4, \$5, \$6, \$7 and \$7.50. Placards are displayed in bank windows with "Notice—wheat \$1.40 per bushel." Mr. McCrea says Mr. Miller is building on one farm with a view of making that his home. The house is modern in every respect—fire, water in every room. Fuel is very cheap there.  
Dick Hedding is enjoying his vacation at home.

## TUMOR OF FOUR YEARS GROWTH

Removed by Lydia E. Pinkham's Vegetable Compound

Lindley, Ind. — "Lydia E. Pinkham's Vegetable Compound removed a cyst tumor of four years' growth, which three of the best physicians declared I had. They said that only an operation could help me. I am very glad that I followed a friend's advice and took Lydia E. Pinkham's Vegetable Compound, for it has made me a strong and well woman, and I shall recommend it as long as I live."—Mrs. May Fox, Lindley, Ind.  
One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy—tumor. If you have mysterious pains, inflammation, ulceration or displacement, don't wait for time to confirm your fears and go through the horrors of a hospital operation, but try Lydia E. Pinkham's Vegetable Compound at once.  
For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and such unquestionable testimony as the above proves the value of this compound remedy, and should give confidence and hope to every sick woman.  
If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

## QUALITY OF FALCON

The Columbus Laboratories of Chicago made the following test using the best patent flour made as a standard by which to test Falcon:

CHICAGO, Aug. 25, 1908.

SHANNON & MOTT COMPANY, Des Moines, Iowa.

Dear Sirs: We beg leave to report on Comparative Flour Test as follows:

|                     | Standard Spring Patent. | Sample Number 6941 |
|---------------------|-------------------------|--------------------|
| Gluten—Per Cent     | 16.5                    | 10.2               |
| Ash—Per Cent        | 15                      | 38                 |
| Absorption—Per Cent | 62                      | 100.0              |
| Color               | 100.0                   | 100.0              |
| Loaves Per Barrel   | 100.0                   | 100.0              |
| Size of Loaf        | 100.0                   | 100.0              |
| Quality of Loaf     | 100.0                   | 100.0              |
| Average Value       | 100.0                   | 98.5               |
| Permuting Period    | 100.0                   | 101.5              |
| Quality of Gluten   | 100.0                   | 101.5              |

NOTE—In the above report the gluten and the ash are expressed as parts in each one hundred parts of the flour. The absorption is the amount of water necessary to add to one hundred parts of the flour to make a dough of standard stiffness. The remaining values are so expressed as to show the relations to the standard flour which for the purpose is given a value of 100 per cent. The loaves produced are made under carefully controlled and uniform conditions and baked in accurately graduated baking cylinders in an electric oven. The value expressed as quality of loaf is based upon the color, flavor and texture of the bread. The AVERAGE VALUE expressed in per cent. is the mean value, of color, loaves per barrel, size of loaf and quality of loaf. It should not be taken alone in comparing the value of flours, but each of the factors of which it is made up should receive consideration.

GENERAL REMARKS: 6941 is sample marked Falcon. Aug. 22, 1908. Very respectfully submitted, THE COLUMBUS LABORATORIES. J. A. W.

**CITY'S WEALTH  
HAS INCREASED**EVERY WARD SHOWS GAIN IN  
ASSESSED VALUES.**FIFTH WARD GAINS MOST**Assessors' Rolls Show This Year's  
Valuation to be Greater Than  
Last Year's by \$204,246.According to the assessors' rolls  
which are filed in the city clerk's  
office, the assessed value of Janes-  
ville property this year is greater by  
\$204,246 than it was in 1929. This re-  
sult is unobtainable as the assessors' es-  
timates have yet to be verified by  
the city clerk, but in the main with  
perhaps a few slight changes, the  
above estimate is substantially cor-  
rect.The assessed value for 1929 was  
\$10,063,192; for 1930 is \$10,267,438.  
The increase, which, as before stated,  
is \$204,246, is an advance of more  
than two and one-half per cent on the  
valuation last year. This in-  
crease is due partly to the rise in  
values, and in part to new buildings  
and improvements.Together with the increase for the  
whole city every ward has made a  
substantial advance. This is most  
marked in the fifth, where the in-  
crease is over five and three quar-  
ters per cent. Next in order comes  
the third ward with an increase over  
four and one-half per cent, the fourth  
with three and one-half per cent, the  
second with seven-tenths per cent  
and the first which shows the least  
advance, with six-tenths per cent.In 1929 the property in the first  
ward was assessed at \$2,517,306; in  
1930 at \$2,552,917, an increase of \$35,-  
611. In the second ward in 1929, the  
value was given at \$1,889,530, in  
1930 at \$1,902,792, an increase of \$13,-  
262. In the third, the difference be-  
tween the value for 1929, \$2,933,465,  
and for 1930, \$3,050,894, is \$117,429.  
The fourth ward in 1929 was assessed  
at \$1,783,876; in 1930 at \$1,810,589, a  
difference of \$26,713. The fifth ward  
in 1929 was valued at \$393,314, in  
1930 is given as \$404,176, an advance  
of \$10,862.Janesville's showing is vastly bet-  
ter than that of Beloit where it is  
thought that the increase in the as-  
sessed value of the entire city will  
not exceed \$75,000. Beloit's total as-  
sessment this year is expected to be  
nearly \$8,739,612.**TO SELECT THE SITE

cating and management of the Great  
county training school for teachers  
sent yesterday to Monticello and  
Monroe for the purpose of looking in-  
to the offers made by the citizens of  
these places to get the temporary lo-  
cation for the school. The board will  
meet next week when one of the of-  
fers will be accepted and an assistant  
principal appointed.Lieut. John D. Gorman, of Co. H,  
of this city, stood second in the com-  
petition of the King revolver in the  
pistol competition at Camp Douglas.  
Lieut. Clemens, of Co. I, gets the  
trophy with a score of 381, which is  
one point more than was made by the  
Monroe man. The Monroe competi-  
tors shot in a pouring rain and with  
more favorable conditions their  
scores would have been higher.Grant Weber, of this city, is now  
doing the lateral mountain at Bad  
Laternberg, Germany, where he is a  
member of a party of ten that will  
spend five weeks there.Monroe will send a team to the

fire was discovered in the old Mar-  
quisse tobacco warehouse on South  
River street. When the blaze was  
seen it was burning quite brightly  
and was making good headway. A  
still alarm was sent to the fire de-  
partment. One stream of water was  
used and after twenty minutes of  
hard work by the firemen, the flames  
were extinguished. The building is  
the same one in which there was a

Down Amid Shower of Fireworks.The most thrilling and most spec-  
tacular circus act ever devised will  
be seen on Friday, July 26, when the  
Barham and Bailey Greatest Show  
on Earth visits Janesville.This act is performed by Jupiter,  
the balloon horse. Jupiter is ascribed  
by an unusual horse, the man who  
has the nerve and patience to train  
him is also unusual and rare. It is  
the woman with the daring to ride him.  
Jupiter ridden into the arena steps  
on the platform attached to a bal-  
loon. There is no railing on this  
platform, which is only just large  
enough to hold the animal. In no  
way is his courage and that of the  
balloon horse on his back. Slowly  
the balloon ascends, the beautiful  
animal making a picture as he rises  
high in the air. One becomes filled  
with varying emotions. The sense of  
pleasure at the picturesque features  
of the act gives way to fear when  
one realizes the great height to  
which the balloon ascends and the fact  
that the slightest nervousness on the  
part of the animal would end with  
disastrous results. Suddenly there is  
a loud series of reports and rockets  
attached to the platform begin ex-  
ploding, a shower of fire and sparks  
fall all but hides the horse from  
view. The descent is made in this  
very blaze. The applause that greets  
the conclusion of the act is deafen-  
ing and shows how greatly it is ap-  
preciated by those who see it.Altogether it is a great performance  
that will be unfolded. It is a circus  
that has ransacked Europe for nov-  
elties and in which the quality of the  
performance is of the highest.Among the noted performers here for  
the first time are the Perez troupe,  
the La Fille troupe, the marvelous  
Kirsten-Marettes, Karoly's Sixteen  
Hungarian stunts, the handsome  
Dolke sisters, the famous Konyots,  
the Selgriat-Silbon troupe of aerial-  
ists, Lee Jarley and the Fausto trio.The new parade to be given on  
the forenoon of show day is of a new  
stevens and gorgeousness that will  
open people's eyes with wonder. The  
circus is one that will be long re-  
membered.**Little Good Done by Kicking.**"De fact dat kicken" don't accomplish

**HANDLING OLD CROPS  
CONTINUES SLOWLY**Remnants of '07 and '08 Crops Being  
Picked Up Very Quietly  
By Buyers.According to the Edgerton Reporter  
the movement to take over the re-  
mnants of the '07 and '08 crops remain-  
ing in growers' hands quietly pro-  
ceeds, when they can be secured at  
about former quotations and in the  
aggregate considerable quantities have  
been lifted. The market for old crops  
tends to take on some signs of im-  
provement. Packers report a better  
inquiry for samples and transactions  
amounting to at least 300 cases of '06  
has taken place during the week,  
aside from the usual small trading on  
manufacturers' orders, which is con-  
tinually going on. The unfortunate  
part of this movement is that prices  
pay little or no profit to the packers.The month of July so far has not  
brought the usual rainfall and the  
greater part of the tobacco sections  
of the state stand in need of moisture.  
Up to this date, however, the new  
crop has not materially suffered ex-  
cept in the late set fields, but a con-  
tinuation of the drought begins to  
mean much in the curtailment of the  
crop every day now. The plants have  
such a good, strong rooting that if  
rains come soon a quick recovery  
will follow.The shipments out of storage reach  
4500 for the week past to all points  
from this market. Since last report  
six carloads have been received from  
outside points.The critical time for the making of  
the new tobacco crop comes now in  
the few next succeeding weeks, when  
so much depends upon the weather  
conditions prevailing. Timely rains,  
without accompanying heavy storms  
or hail, and the absence of long con-  
tinued drought are most needed now  
to bring about a satisfactory crop.Already a good portion of the tobacco  
growing sections of the state are suf-  
fering from a drought now running in-  
to a third week. Rains must come  
soon or an uneven crop is bound to  
follow. The earlier set fields, how-  
ever, are holding up well under the  
trying conditions and making some  
progress.**WILL STOP ROWDIES  
RIDING ON TRAINS**Chicago, Milwaukee & St. Paul Road  
Has Special Detectives on Sun-  
day Trains.For some time there have been nu-  
merous complaints as to the conduct  
of rowdies who board the Chicago, Mil-  
waukee & St. Paul trains at the  
Madison lakes and ride to Stoughton  
and Edgerton that for several Sun-  
days past two conductors and special  
detectives have been stationed on the  
trains to preserve order and protect  
the passengers from insults.In speaking of the matter, P. H. Casey,  
who is well known in Janesville, said  
recently:"J. A. Hines, special agent for the  
Milwaukee road, is determined to  
break up the practice of jumping on  
trains and stealing rides. Conductors  
running out of Madison have had  
much trouble with fellows who jump  
on trains at Stoughton, Edgerton, and  
other places along the line. We will  
get after them also if they do not  
stop it. Other arrests will surely  
follow if this sort of thing is kept up.  
Instead of taking them before a jus-  
tice of the peace, where they get off  
with \$1 fines, we will have them ar-  
raigned in federal court. This prac-  
tice must be stopped absolutely.  
These young hoodlums interfere with  
the work of conductors and insult  
passengers. Mr. Hines will not tol-  
erate the annoyances any longer."Jumping on trains and stealing  
rides is a violation of the law. Al-  
most any night a number of young  
men from this city can be seen boot-  
ing their way on trains to nearby  
towns. A strict watch will be main-  
tained hereafter, and if anyone is  
caught stealing a ride he will be  
placed under arrest.**HUNTING PEARLS AT  
FULTON THIS WEEK**Party of Albany Clammers Said to Be  
Making Some Valuable Finds  
In This County.A camp of Albany pearl hunters  
have been dredging the river at Ful-  
ton for a few weeks past and it is  
reported have been finding some very  
fine pearls. An exceedingly perfect  
one is said to have brought the hun-  
ters \$100, while those of less value  
with the shags secured make it quite  
a profitable business. The clam fish-  
ers are very close-mouthed regarding  
their finds as they do not care to  
have the field overrun by hunters who  
would flock there if it was generally  
known how successful the business is.  
Another industry has followed in the  
wake of the pearl searchers—that of  
gathering the discarded clam shells  
for shipment to the pearl button fac-  
tories where they bring from \$20 to  
\$30 per ton.**DARKERS' CORNERS.**Barber's Corners, July 23.—Anna  
Dilzer came up from Chicago, Sat-  
urday, to spend a few weeks at the  
home of F. McDermott.Mrs. W. E. Shoemaker and daugh-

STATE GOLFERS**MILWAUKEE CLUB ENTERTAINS  
STATE ASSOCIATION.**FOR CHAMPIONSHIP TITLE**Of Wisconsin Will Be Played for  
August 11 to 14 at the Blue  
Mounds Country Club's  
Grounds.Beginning Wednesday, August 11,  
and continuing up to Saturday of the  
same week the annual meet of the  
Wisconsin Golf Association for the  
amateur championship of the state of  
Wisconsin will be held in Milwaukee.  
The Blue Mounds Country club will  
be the hosts at this time to the vari-  
ous teams entered from the various  
cities of the state. Among the en-  
tente will be a team from the Shin-  
nepsippi golf club in this city, but  
just who will go has not been decided.The competition will consist of a  
qualifying round, eighteen holes  
medal play, the first sixteen to qualify  
for the championship cup, the second  
sixteen to qualify for the President's  
cup, and the third sixteen for the  
Director's cup. The sixteen in each  
flight shall then compete at match  
play, eighteen holes, except finals,  
which shall be at thirty-six holes.Players defeated in the first round  
for the championship cup play down  
at match play for the Vice-President's  
cup; those losing in the first round  
for the President's cup play down for  
the Secretary's cup, and the losers in  
the first round for the Director's cup  
play down for the Treasurer's cup.A cup will be given for the qual-  
ifying round, and silver cups for the  
victorious ones in the President's  
Vice-President's, Director's, Sec-  
retary's and Treasurer's flights. There  
will also be appropriate trophies for  
the consolation, choice score, age  
limit, two-ball foursome, and bogey  
competitions and for those failing to  
qualify in their respective classes in  
case four or more fail to qualify.The winner of the competition shall  
be the champion of Wisconsin, hold-  
ing this title until the next series of  
championship rounds are played. The  
custody of the championship cup  
shall be in the club of which he is a  
member. To the champion, a gold  
medal is presented, with a silver  
medal for the runner up.The entrance fee of two dollars  
must be paid by each contestant,  
must be made through Charles Gage,  
secretary of the Shinnepsippi club. The  
entrance fee and the club handicap  
must be turned in by those desiring  
to enter the tournament. All entries  
will have to be in at the office of the  
secretary-treasurer of the association  
by six o'clock of Wednesday, August  
11.Besides the regular contests for the  
championship, the officers and direc-  
tors in charge of the affair have  
planned a number of special events  
with cups and emblems for each.
